

Maths

We will be developing our fluency, reasoning and problem-solving skills with;

- Place value | more, 1 less, 10 more, 10 less
- Addition — number bonds
- Subtraction — relating addition facts to subtraction
- Multiplication — counting in 1s, 2s, 5s, and 10s
- Division — solving sharing problems
- Fractions - halves and quarters
- Shape- 2-D and 3-D shapes
- Measure capacity and weight
- Rotation; clockwise and anti-clockwise

English

We will use The Storm Whale text to write using new vocabulary and prepositions. We will write a recount of our trip to the beach. We will also be reading non-fiction books about sea creatures.

We will continue to develop our skills in;

- Presentation/ handwriting
- Spelling
- Punctuation
- Using a variety of sentence types.
- Ensuring our sentences make sense.

Science

We will continue with our longitudinal studies as the seasons change.

We will be learning more about the seasons e.g. weather, daylight hours and how animals and trees change.

R.E.

We will think about the concept of 'precious' linked to water, and what this concept means to us.

I.C.T.

We will be using iPads to practise using 'Scratch' ready for our first unit of Year 2.

Would you like to go to the seaside?

A topic about the seaside -
June July
2026

Personal, Social, Health, Education

I will learn about "changing me"

We think about how we have changed since we were babies, and look forward to more change as we move into our new Year 2 classes in September!

Geography

We will be revising human and physical features and map skills.

PE

This ½ term we will be learning hockey practising games skills ready for our sports day!

Art

We will learn about the Japanese artist Hokusai, who made this famous wave picture. We will sketch sea creatures and use clay to make an ocean scene.

Music

We will be using the drums to copy and create different rhythms
